GDIT - Cyber Security Analyst

Shreveport, LA - Jun. 2021 - Oct. 2021

Analyzed and acted on intelligence information to secure client networks,by correlating security events and using network logs and trend analysis to identify attacks.

Technologix - Cyber Security Analyst

Shreveport, LA - Jan. 2021 - Jun. 2021

SOC and incident response team member. Experience using SentinelOne, sysinternals tools, cloud log reviews (O365, Azure), system log reviews (eventvwr, siem) and wireshark to investigate and remediate threats.

Reviewed policies, workflows, and controls to see where security should be improved internally and for clients in the cloud and on-prem. Initiated and managed projects to mitigate or eliminate the risks discovered.

Integration of 2FA using conditional access, application consent review workflows, and DLP for Azure/Azure Hybrid deployments and Office 365.

Technologix - Support Engineer

Shreveport, LA - Jan. 2019 - Jan. 2021

Provided Tier I and Tier II technical support to clients in many different fields, from oilfields to orthopedic surgery. Remote & on-site.

Frequently troubleshot & setup PBXs/VoIP, Firewalls, Switches, Domain Controllers, DNS, DHCP, Office 365 features, Azure features and more.

Managed the imaging server (MDT and WDS), creating client specific sequences, creating deployment scripts for configuration of the images, and kept everything up to date.

ProSphere - Service Desk Technician

Bossier City, LA - Jan. 2018 - Sept. 2018

Provided IT support to the hundreds of thousands of VA employees and end users; Servicing the numerous VA owned machines and user accounts while maintaining data integrity.

Remotely troubleshot a wide variety of VA proprietary systems and standardized systems including Windows AD, Office 365, PIV/PKI Encryption, Linux/Windows Virtual Machines, and the standard Windows desktops.

Fenway Group - Application Developer

Ruston, LA- Mar. 2016 - Apr. 2017

Using Scrum techniques, developed and tested multiple full-stack internal web applications for CenturyLink Telecom with an iterative release cycle.

Experience using Java, JavaScript, HTML, CSS, Oracle SQL, Hibernate, React, Node, Apache, Bootstrap and other technologies.

LA Tech University - Helpdesk Consultant

Ruston, LA - Dec. 2013 - Mar. 2016

Held the responsibility of deploying and imaging new computers, as well as maintaining and troubleshooting the existing state-owned machines on campus.

Technical support in person, over the phone, or through a remote connection, assisting enrolled students and faculty members of Louisiana Tech.

DCSD Technology Dept. - Network Admin Intern

Darlington, SC - Summers Jun. 2014 - Aug. 2015

Shadowed a network administrator full-time, assisting in the management and maintenance of several school-wide network switches, routers, and access points.

Aided in the deployment of over 2,000 Macbooks + iPads to teachers & faculty in the district as a part of the "One-to-One" 5 year technology plan.

EDUCATION

Louisiana Tech University

Computer Science - Incomplete (103 Hrs Completed)
Sept. 2013 - May 2017
